### LIVING FENCES

ROSA MULTIFLORA. For a fast growing, inexpensive hedge. Covered with white blossoms beginning in June followed by colorful red berries in fall. Ten plants for \$2.75 (15 feet of hedge). Fifty plants for \$9.85 (75 feet of hedge). One hundred plants for \$19.65 (150 feet of hedge).

### Malmo Climbing Roses

FOR HIGH COLOR

- CLIMBING ROSES are perfectly suited to the porch, garden wall, the fence, or as a specimen on a trellis, on garden pillars, against the summer house or other building.
- To prune climbing roses: Climbers when planted should have all stems removed at the ground except the 2 or 3 strongest. These should not be cut back, except the twigs, as climbers bloom only on last year's growth.
- Pruning climbers in subsequent years should be done by leaving only the strongest canes of the current year's growth, removing at the ground the two-year canes that have bloomed.
- R—RED, P—Pink, O—Orange, Y—Yellow, W—White, M—Multi-color, \*—Fragrance.
- R—BLAZE. CL. Brilliant scarlet flowers in huge clusters. Blooms all summer with breath-taking display of color. 1.50
